

PRECISION AIR SAMPLER

Laboratory & Pharma Industry Standard

☑ Key Features

- Compact and Portable Design
- Stainless Steel Construction for Corrosion Resistance
- High Accuracy Flow Meter (0 – 200 LPM)
- Pressure Gauge for Real-Time Monitoring
- Easy-to-Use Bail Valves for Precise Flow Control
- Suitable for Microbial Air Sampling in Pharma, Hospitals, Labs, and Cleanrooms

Technical Specifications

Parameter	Specification
Flow Rate Range	0 – 200 LPM (Liters Per Minute)
Pressure Gauge	0 – 10 kg/cm ²
Material	Stainless Steel (SS304)
Flow Meter Accuracy	±2 % Full Scale
Power	Pneumatic – No Electrical Power Required
Dimensions	30 cm x 20 cm x 25 cm (Customizable)
Weight	~5 kg (Compact & Portable)
